

beyond family practice

Providing superior medical care for the entire family with a focus on personal attention is the mantra for **Dr. Michael Gallops** and **Dr. Robert Korolevich**. While both physicians have been practicing in Naples for 20 years combined, they have dedicated their new private practice to the development of a personal relationship between the patient and the physician, as it was meant to be. Presently their practice is at 5405 Park Central Court, Naples, but in October they will be relocating to their beautiful new facility at 5515 Bryson Drive Suite 501 in Naples.
